

Night Navigation Circuit #3 – Trecastle Road

Overview: This area around the source of the river Tawe is best navigated using the shape of the land and water features that cross it. This circuit kicks off from the car and has the bonus of providing several water features to negotiate on route. This circuit is designed to take an evening to complete, but be flexible and add./remove legs as required, there's lots of potential for learning at this spot, and you can always return another night...

Starting Point: SN(852 216)

Park in the small, easily missed, lay-by on the Trecastle road. There are other lay-bys along this road to the north that can also be used.

The Circuit:

Point 1- (851 219) Grassy spur.

Point 2- (853 224) Contour feature.

Point 3- (850 222) Bend in stream.

Point 4- (845 223) *Cairn*.

Point 5- (851 216) Boulder.
